

How to download WinSCP

Follow these steps to download WinSCP:

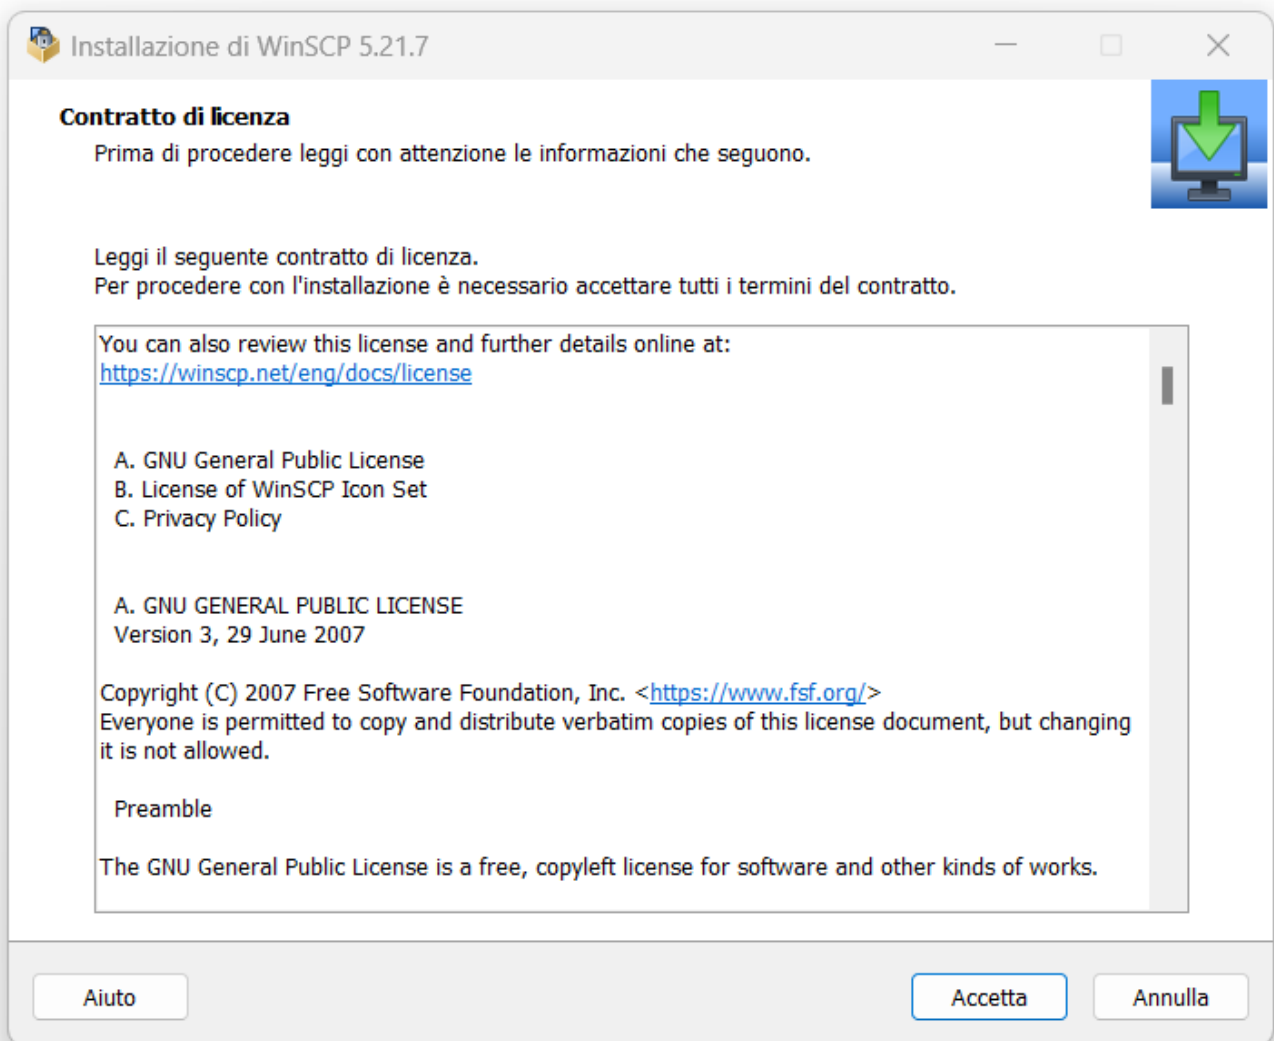

1. Open your browser and visit the WinSCP official website at <https://winscp.net/>.
2. Click on "Download" button at the top of the page.

3. Select the version of WinSCP you wish to download. Available options include the latest stable release and the latest release.
4. Click on the "Download" button.

5. After the download completes, open the WinSCP installation file and follow the on-screen instructions to complete the installation.

Note that WinSCP is only compatible with Windows operating systems. If you are using a different operating system, you will have to look for another solution for transferring files via SCP or SFTP protocol.
