

Connect MailUp to vtenext

ACCOUNT CONFIGURATION

Log in to MailUp and go to **Settings > Advanced Options > Developer Options > New API Key**. This will generate the **Client ID** and **Secret Key**.

Enter the **username**, **password**, **Client ID**, and **Secret Key** in the **Settings > Account Configuration** section of vtenext. The **Callback URL** is not mandatory and corresponds to the **CRM URL**.

Configure the list by going to: **Settings > List Settings > Properties > General**.
