14.1.1 Insert images in PDF

Press the Image button in the editor:
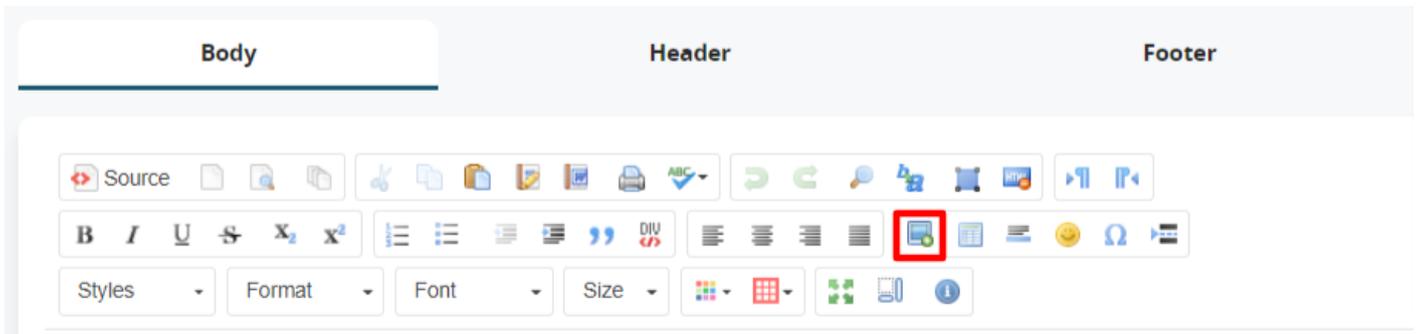

URL	insert the URL of the image (if already present); if the URL is not already present, click Search on the server to upload an image
Width / Height	to change the image size in the template
🔒	blocks height-width proportions
↻	resets the original size
Border	enter a numerical value in pixels corresponding to the thickness of the border for the image (blank for no border)
HSpace / VSpace	enter the coordinates for positioning the image with respect to the text base line (blank to set the default position, in line with the text)
Alignment	define the alignment of the text
