

18.9 Proxy Server

If your company is using a proxy server to access the Internet, you can use the Proxy Server Settings menu, as shown in the figure.

The screenshot shows the 'Settings > Proxy Server' configuration screen. At the top left is a globe icon and the text 'Settings > Proxy Server' with a subtitle 'Configure proxies to access RSS feeds through the Internet'. Below this is the 'Proxy Server' section header. On the right side of this section are two buttons: 'Save' (blue) and 'Cancel' (red). The form contains four fields, each with a red asterisk indicating it is required:

- *Server Address: http://192.168.1.68
- *Port Number: 4400
- *User Name: root
- *Password:
