

# 5.6.1 Documents revision and sharing

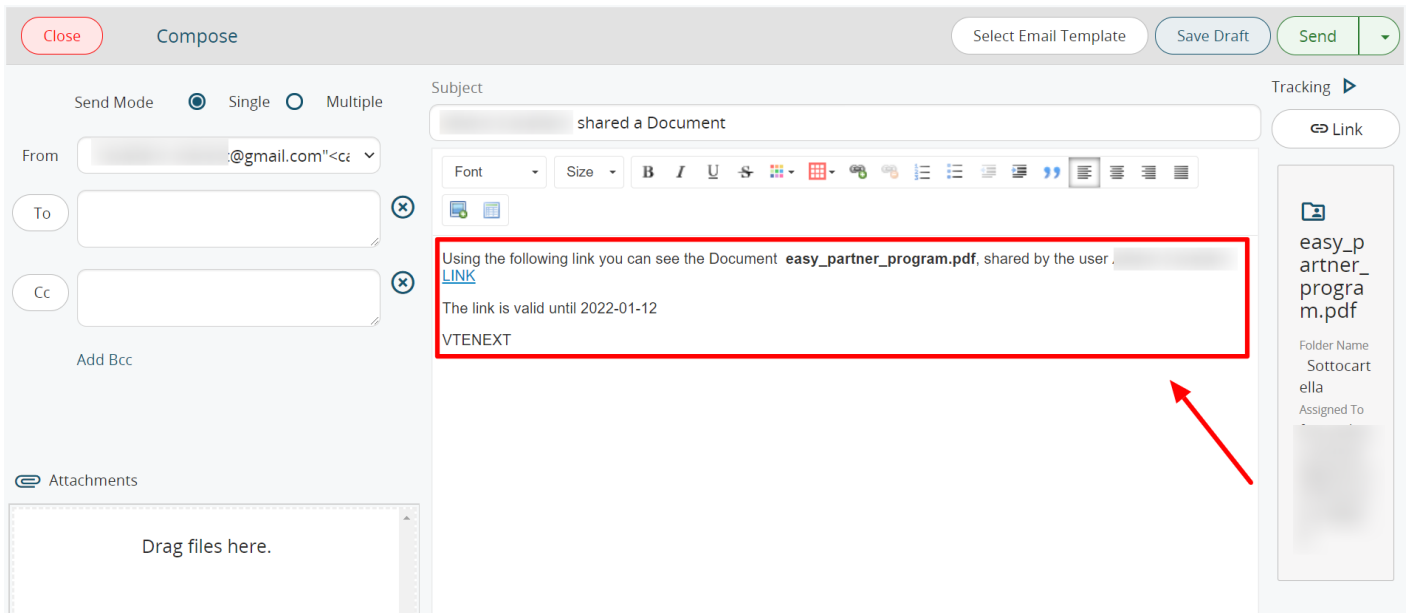

Document revisions can be managed by means of the “Add Revision” button in the OTHER tab.

Once the revision is created, the list of previous versions will be available in the OTHER tab.

To share a document click on “Share Document” to send a link by email.

The compose new message window will open with a pre-compiled text and the link required to access the file. The link remains valid for 5 days before being disabled. Any of your contacts lacking a vtenext account can thus access the document.
