9.6 Delivery Notes

The Delivery Notes module is used to manage transport documents and is the last step in the sales-administration cycle.

Enter the main fields and the products related to the shipment. It is possible to create a Delivery Note starting from a sales order through Create Delivery Note (Other menu); in this case all the data of the sales order will be reported in the Delivery Notes. For PDF printing of the Delivery Note, see the chapter dedicated to the PDF Maker module.
