16.10 Check User Login

Again, as an administrator user, you can view failed login attempts for each user and if they have been blocked (for example, if they have entered their password incorrectly more than 5 times), you can reactivate them by clicking on **"Add to whitelist"**.

Settings > Check User Login
Show locked account and provides whitelist's action

User Login History

Select User   zwnyeonhedvjxibwfd@kvhrw.com (Subalterno)
