

18.9 Proxy Server

If your company is using a proxy server to access the Internet, you can use the Proxy Server Settings menu, as shown in the figure.

The screenshot shows a settings window titled "Settings > Proxy Server" with a subtitle "Configure proxies to access RSS feeds through the Internet". The window contains a form with the following fields:

Field Label	Value
*Server Address	http://192.168.1.68
*Port Number	4400
*User Name	root
*Password

At the top right of the form, there are two buttons: "Save" (blue) and "Cancel" (red).
