

# 14.3 Barcodes

It is possible to insert barcodes inside the template through the "Other information" Tab:

The screenshot shows a software interface with several tabs: Properties, Other information (selected), Labels, Products block, and Settings. Under the 'Other information' tab, there are several sections: 'Company and User information', 'Terms and Conditions', 'Current date', 'Barcodes', and 'Custom functions'. The 'Barcodes' section is highlighted with a red box, showing a dropdown menu set to 'EAN13' and an 'Insert Barcode into template' button. Below this, the 'Body' section is also highlighted with a red box, showing a text field containing the code '[BARCODE][EAN13=YOURCODE][BARCODE]'. At the bottom right, there are 'Apply', 'Save', and 'Cancel' buttons.

It is possible to insert a fixed number or a variable within this string. The number or variable will be inserted instead of "YOURCODE":

Example of a result:

Revision #1
