

## 3.3 Contacts

Contacts contains the lists of the physical persons with whom relations have been established:

- account contact persons (customers, partners, or other type);
- private customers (or potentials) who generally come from a lead conversion;
- vendor contact persons.

The screenshot displays the 'LIST' view of the Contacts application. At the top, there is a search bar and a navigation menu on the left. Below the search bar, there are buttons for '+ Create' and ': Other'. The main area shows a table of contacts with columns for Action, Contact No, First Name, Last Name, Title, Office Phone, Email, and Assigned To. The table is paginated, showing 'Page 1 of 2' and 'Showing 1 - 20 of 37'. The contacts are listed in a table with alternating colors for each row.

Reports To

### Below some relevant fields in Contacts:

<b>Report to</b>	Link to another contact, e.g. superior in the company.
<b>Do Not Call</b>	Tick the flag if you want the contact to not be called; this is for simple information purposes and is not linked to automatic functions or blocks.
<b>User Portal</b>	Enables the contact to access the vtenext Customer Portal (see dedicated chapter): when the contact is saved, the system will send an email with the credentials.
<b>Support Start and End Date</b>	Defines the vtenext Customer Portal access expiry date.
<b>Lock Automatic Emails</b>	Allows you to not send notifications of opening and ticket management to the email linked to the contact

vtenext is equipped with a parallel customer service tool called Customer Portal.

**Support Start Date**

(dd-mm-yyyy)

Provides contacts with limited access to Trouble Ticket functions: opening of new Tickets, sharing documents, etc.

To change the template of the email used to send the credentials, go to Settings > Email template > Registration and access data.

**ANONYMIZE:** in the new release, clicking on the “Other” button provides access to the “Anonymize” option. This feature has been created to manage leads according to GDPR rules. Anonymized Leads and Contacts cannot be restored.
