

8.4 Price Books

The function of a price book is to collect a set of products whose price changes compared to the unit price, defined in the product record. To create a price book, click on .

The screenshot shows the 'Creating PriceBook' form. It has a sidebar on the left with various icons. The main area is titled 'Creating PriceBook' and contains two sections: 'Price Book Information' and 'Description Name'. The 'Price Book Information' section has fields for 'Price Book Name' (with a text input), 'PriceBook No' (with a dropdown menu showing 'AUTO GEN ON SAVE'), 'Active' (a checked checkbox), and 'Currency' (a dropdown menu showing 'Euro'). The 'Description Name' section has a 'Description' label and a large text area for input. At the top right of the form are 'Save' and 'Cancel' buttons.

To avoid confusion, the Price Book must be given a unique name. The program also allows the insertion of a description for possible future reference. Refer to the information given for the Products and Services modules in relation to the relevant fields.

The screenshot shows the 'PriceBook Cd-R - Vtenext' interface. It features a sidebar on the left with various icons. The main area is titled 'PriceBook Cd-R - Vtenext' and contains a large table with the following columns: 'Action', 'Product Name', 'Part Number', 'Unit Price', and 'List Price'. The table is titled 'Products (6) - List' and shows 6 products. A red box highlights the table, and a red arrow points to the 'Products' button in the 'RELATIONS' sidebar on the right. The 'RELATIONS' sidebar also includes 'SHORTCUTS' (Talks, Notes) and 'SERVICES' (Services, Messages, Processes).

Action	Product Name	Part Number	Unit Price	List Price
 	product b		20.00	20.00
