

4.5 Import and export activities

To import or export Activities between vtenext and other applications, the standard iCalendar format is available (.ics extension).

To export the activities of the vtenext calendar, you must display it in list mode, select the records to be exported, press the export button and choose the filename. Likewise, to import records from the external iCalendar file, press the import button and follow the procedure.

The screenshot shows the vtenext calendar interface in list mode. A search bar is at the top left. A menu is open on the left side, with the 'Export' button highlighted by a red box. A red arrow points to the 'Activity Type' dropdown menu. The main area displays a table of activities with columns for Activity Type, Subject, Related to, Start Date & Time, Due Date, and Assigned To. The table contains 15 rows of activity records.

Activity Type	Subject	Related to	Start Date & Time	Due Date	Assigned To
Call	Meeting - Conference Partnership	demovte	02-05-2018 09:00	02-05-2018

As an alternative to export / import in iCalendar format, vtenext supplies a series of integrations with very common systems:

- Synchronisation via Active Sync protocol (extra module);
- Synchronisation with Exchange calendar (extra module);
- Synchronisation with GCalendar (extra module);
- Synchronisation with Zimbra (extra module);
- Synchronisation with Outlook and Thunderbird via plugin.
