

14.3 Barcodes

It is possible to insert barcodes inside the template through the "Other information" Tab:

The screenshot shows a template editor interface with several tabs: Properties, Other information (selected), Labels, Products block, and Settings. Under the 'Other information' tab, there are five sections: 'Company and User information', 'Terms and Conditions', 'Current date', 'Barcodes', and 'Custom functions'. Each section has a dropdown menu and an 'Insert into template' button. The 'Barcodes' section is highlighted with a red box, showing a dropdown menu set to 'EAN13' and an 'Insert Barcode into template' button. Below the tabs, there are three sections: 'Body' (highlighted with a red box), 'Header', and 'Footer'. The 'Body' section contains a rich text editor with a toolbar and a text field containing the code '[BARCODE][EAN13=YOURCODE][BARCODE]'.

It is possible to insert a fixed number or a variable within this string. The number or variable will be inserted instead of "YOURCODE":

Example of a result:
