

17.13 List view colours

Allows for the application of custom colours of views by list, or related list, based on the value assumed by a picklist-type field or control box. **Note that only one field can be chosen per form.**

Furthemore is possible to choose the **style through which color records**, which are: Full row, Little block on the left or Thin line in the bottom of the record. Lastly is possible to adjust the color intensity, thanks to a slider that manage the percentage value.

How the list view color configuration appears in the settings:

Full row	Acquired Active Market Failed Project Cancelled Shutdown --None-- #fee58 #4caf50 #f4511e #e53935 #78909c
Little block on the left	Acquired Active Market Failed Project Cancelled Shutdown --None-- #fee58 #4caf50 #f4511e #e53935 #78909c
Thin line	Rating - Coloring preview Acquired Active Market Failed Project Cancelled Shutdown --None-- #fee58 #4caf50 #f4511e #e53935 #78909c
Field	Acquired Active Market Failed Project Cancelled Shutdown --None-- #fee58 #4caf50 #f4511e #e53935 #78909c

For example, we want to view Accounts records with colour based on the **Rating field**.

Edit page to change the color of the Accounts based on Rating field

The coloring will be displayed on the "All" filter and on custom filters created for the module. Here's how it appears:

☐	Action	Account No	Account Name	Annual Revenue	Phone	Email	VAT Registration Number	Type	Billing State	Assigned To
