

18.9 Proxy Server

If your company is using a proxy server to access the Internet, you can use the Proxy Server Settings menu, as shown in the figure.

 **Settings > Proxy Server**
Configure proxies to access RSS feeds through the Internet

Proxy Server

Save

Cancel

*Server Address	http://192.168.1.68
*Port Number	4400
*User Name	root
*Password	*****
