# 3.15 Projects

Projects is the most appropriate place for managing a new project, checking its development, and coordinating resources. A Plan is typically linked to an Account and its Operations.

*Project details*

*Operations related to a Plan*

| **Organizational layout of related modules** | | |
|---|---|---|
| Conversations | Notes | Trouble Tickets |
| Messages | Project Tasks | Milestones |
| Documents | Activities (Calendar) | Tasks (Calendar) |
| Processes | | |
